In other words, you can continue training **with the same group of people** for as long as you desire. there are always new things to learn and there is always room for improvement on the things already learned. Pi Square level members also participate in parades and exhibitions for schools and community associations to demonstrate their skills and show others the advantages and joys of sharing their lives with a "Canine Good Citizen".*

The Pi Square level has grown into groups of people who consider themselves friends and are always happy to accept new friends into the group. The Pi

Square groups meet at a local pizza parlor for their orientation classes before each session where everyone has a great time. We hope that your enthusiasm for dog training eventually takes you to the Pi Square level. You will enjoy the friendships you develop and the skills you and your dog acquire. Feel free to call us at any time for more information.
